

University of St. Thomas Club Sailing

Policies

All members should strive to share information and knowledge. They should work to instruct newer members and teach them what they know.

Team members must leave campus by 3:25 pm or earlier for practice. If at any point a member cannot make practice on their assigned day, by the aforementioned time, they must notify executives and team members.

Coaching will be provided ONLY on assigned competitive days. Competitive days will be announced at the beginning of each semester by the Club President.

When regatta selections are announced, a 24 hour waiting period will be put in place for any and all concerns about selections. This waiting period must be adhered to by all team members.
